## A DISCOUNT OF 25 PERCENT ON CHILDREN'S CLEANING

Medical science has determined that the greater percentage of contagious diseases appear in school after the holiday season, due, largely, it is said, to infection of outer clothing that has not been properly cleaned and renovated during the holiday vacation.

The process through which clothing passes in being cleaned in our laundry serves as a disinfectant and rids the garments of all disease germs. Feeling that there are perhaps many children in our community not financially able to have their clothing thoroughly cleaned, we are going to do their cleaning during the holiday season at a cost of one-fourth less than the regular price.

This reduction will be made only to children of the school grades. This service is in line with the government plan of conservation by keeping the people in good health and is in accordance with recommendations made by the National Association of Dyers and Cleaners.

## HIS TREATMENT IS REMARKABLE SAYS F. S. PATTY

Ex-Passenger Agent Northern Pacific R. R. Discusses Former Trouble.

Nearly everybody in Knoxville, Tenn., especially railroad people knows Captain F. S. Patty, for twelve years district passenger agent for the Northern Pacific railroad, with local offices in St. Paul and Minneapolis.

On account of general failing health, Captain Patty was forced to discontinue active work and for the past few years has been making his home in Knoxville, where he numbers his friends by his acquaintances. He is a king, genial gentleman of the old school and is beloved by all who know him. The following interesting statement was made by him in person to Mr. G. F. Willis at Kuhlman's recently.

"I am 69 years old and always enjoyed very good health up to about six years ago when I suffered a nervous breakdown and my general health gradually failed me. My principal trouble was indigestion and catarrh, but my whole system seemed to be out of order. My condition finally got so bad I couldn't sleep at night, and always after eating I would suffer so from indigestion and heartburn that I felt just like there was a coal of fire in my stomach. My hearing and vision were also affected.

"I consulted several doctors here in Knoxville and other cities and they helped me considerably and I finally got so I could go around, but somehow I just couldn't feel right, and could not sleep at night, which made me awfully nervous, and nothing I would eat seemed to agree with me.

"I began reading about this Tanlac when you first came here, but I did not decide to try the medicine until I talked with a friend of mine who had actually used it. He said it was the best thing he had ever taken and that was sufficient proof to me.

"I have just finished the first bottle and came here this morning not only to buy the second bottle, but to tell you just what it has done for me. I began enjoying my meals from the first few doses. My nervousness is gone and I can sleep like a child and always wake up in the morning ready for breakfast and feeling refreshed. I am very fond of onions, but was almost afraid to eat them because they always disagreed with me so—I could taste them for hours afterward. I ate one for dinner the other day and it agreed with me perfectly and I felt no bad effects whatsoever. I am beginning to feel like a different man and am always going to keep this Tanlac on hand. It has done me more good than anything else in the medicine line I have ever taken. I certainly do recommend it to my friends. It is really remarkable.

"Tanlac is now sold in Ogden by A. R. McIntyre Drug Co., under the personal direction of a special Tanlac representative.—Advertisement.

## DRINK LONG TOAST TO A SOLDIER BOY

Following the news of the death of George K. Liddell on the western front in France, his parents Mr. and Mrs. Alex Liddell of Ogden sent a communication with the news to a bosom friend in Belleville, Mo. ## BOB NELLING OF OGDEN FINDS GERMAN BOOT WITH PART OF A FOOT IN IT, ON BATTLE FRONT

To poke around in the ruins of an old trench on the battlefield and stumble over fragments of once healthy Germans has been the experience of Bob Nelling of Ogden, who is now in France in active service. In a letter to his sister, Mrs. G. N. Coffin, 2124 Washington avenue, he tells in a highly interesting manner of some of his experiences, as follows:

"In the field, France, Nov. 26, we had our first snow last evening but it is all gone now. The weather here is very wet but it is not severe.

"During my trips I have passed over a great and famous battlefield. There was hardly a square foot that was not turned by exploding shells. Weeds have hidden about everything on the field. In places rifle and machine gun ammunition cases are scattered over the ground like small stones. Rifles are lying where they fell. The battlefield is one large grave yard.

"The French graves are marked by a cross with a red, white and blue disk and two metal ribbons. The British cross has an ammunum disk with the soldier's number and name. The German cross has this simple inscription, 'Un Soldat Allemand' (a German soldier).

"In one old trench I found an old

skull and a German boot with part of a foot in it. Some bones were lying about and pieces of an old German uniform which I presume belongs to the same soldier who used to own the boot. There are many 'duds' lying around. (A 'dud' is an unexploded shell.)

"I recently had the pleasure (?) of visiting a brand new battlefield. It was so new, in fact, that some of the dead were not cold. I saw many interesting and sickening sights of which I cannot tell you.

"To the best of my knowledge, I have been the first American soldier to enter several of the French villages retaken from the Germans. I saw a great deal more of German dead than of our forces. The German trenches were well made and looked as though they were intended to be permanent.

"All the boys in the motor transport of the Twelfth engineers have chipped in and bought a gramophone which we all enjoy very much. We now listen to it instead of to the rumble of the big guns as they put up a barrage fire or a bombardment.

"Write me a long letter and tell me all the Ogden news. Even if we don't get a chance to write we are more than pleased to hear from home."

erally fair in south portion, colder first of week, not much change thereafter.

Northern Rocky mountain and plateau regions: Frequent snow, much colder first part of week and continued cold with a slight moderation last of week.

Southern Rocky mountain and plateau regions: Generally fair with seasonal temperature except colder north portion first part of week.

Pacific states: Frequent rains in Washington and Oregon, generally fair in California with no decided temperature changes.

## LULL ON BRITISH FRONT.

LONDON, Dec. 22.—The lull on the British front continues. German raids at several points last night are the only activities reported in today's official communication. It follows:

"Hostile raiding parties were repulsed during the night in the neighborhood of the Cambrai-Bapaume road east of Monchy la Preux and southeast of Arrmentieres. There is nothing further of special interest to report."

## MEATLESS MINCE MEAT BEING MADE

## New Culinary Triumph of Housewives of the Country Is Announced.

WASHINGTON, Dec. 22.—Meatless mince meat, another culinary triumph in the art of food conservation, has been brought to the housewives of the country by the national emergency garden committee as a worthy companion of pumpkin pie and gingerbread.

The new mince meat which is described as a "camouflage," was tried on 500 troops on a transport who pronounced it perfect and called for more.

One-half package of seeded raisins, half a pound of prunes stewed with lemon juice and peel, one quarter cup sweet cider, four tablespoons brown sugar; chop the raisins and prunes together and the result is said to be a meatless mince pie which will accord with the food administration's meatless Tuesday.

As turkey does not violate the meatless day, Christmas dinner may be complete.

**SICK MEN**

I can positively assert that there does not exist a single case of Blood Disease, Kidney Bladder and all diseases of men I cannot cure promptly, safely, permanently, if amenable to treatment.

I prefer men who are sick; who have by their own overwork, worry or dissipation weakened their brain and poisoned their blood.

**I HAVE A SURE, SPEEDY CURE.**

It does me good to cure men who are suffering from every form of bad blood, drains and discharges. I use only the latest and best methods and medicines. I am up to date in every particular; and as long as I am in the business will be regarded as THE LEADING SPECIALIST in my line.

I invite you to my office to learn of my methods. You can always learn something from such a visit and it costs nothing.
